

Twin-ported CPAP mask and harness

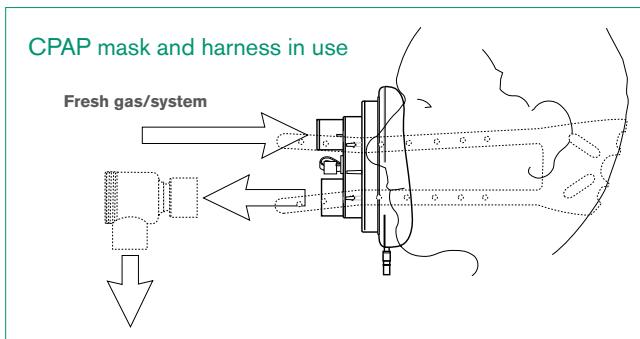

Critical Care • Patient Interfaces

CPAP masks and harnesses

Intersurgical twin-ported CPAP masks offer a comfortable patient interface and are available in two sizes: small and medium/large adult. The soft anatomically shaped cushion will comfortably fit a wide range of patient faces. A number of other key benefits are highlighted below:

Flutter valves

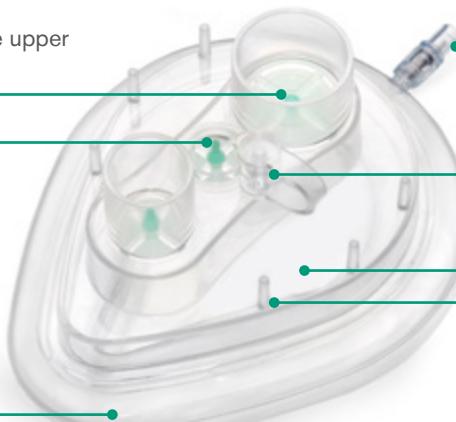

To ensure the patient inhales through the upper port and exhales through the lower port

Safety flutter valve

To allow the patient to breathe if there is an occlusion, or the patient 'outstrips' the set flow

Soft anatomical cushion

Comfortable fit for a wide range of patient profiles

Cushion valve

To allow for adjustment of cushion pressure for improved comfort and fit

Monitoring port

To allow connection of supplemental oxygen or monitoring

Clear, strong mask

To allow for easy patient assessment

Six fixing points

To optimize the seal when using the Intersurgical harness

Code	Description	Box Qty.
2222002	Eye Twin ported CPAP mask adult, medium/large	12
